

PLANT CARE

Plant Care

A little light, a little patience, and the plant completes your beauty.

Your plant likes suitable light, moderate water, and a calm corner.

- ◆ Place it in bright but indirect light.
- ◆ Water lightly when the topsoil feels dry.
- ◆ Avoid overwatering and strong direct sunlight.
- ◆ Remove dry leaves gently when needed.
- ◆ **For the full guide, follow our plant-care content on our page.**

Note:

The plant is a living part of your gift. Care for it as it grows and changes. One day, when it gets bigger, you can move it to a larger pot; it will stay with you and keep adding calm to your space.

CANDLE CARE

Candle Care

A little calm, a little warmth, and the candle completes your mood.

A calm candle for safe use, away from pets and sensitive places.

- ◆ Trim the wick before each use.
- ◆ Never leave the candle burning unattended.
- ◆ Keep it away from children, pets, plants, and fabrics.
- ◆ Use it in a well-ventilated area on a stable surface.
- ◆ Do not move it while lit; let it cool before touching.
- ◆ **For the full guide, follow our candle-care content on our page.**

Note:

The candle in your box is made to add warmth to your calm moments and memories. Light it when you need a quiet pause, and let every soft glow remind you of something you love.

FISH CARE

Fish Care

A little care, a little life, and the fish completes your corner.

Your Betta fish needs clean water, calm, and a little food without excess.

- ◆ Keep the water clean and warm.
- ◆ Feed a small amount once a day.
- ◆ Change part of the water regularly, not all at once.
- ◆ Use a suitable water conditioner before adding new water.
- ◆ Keep the bowl away from direct sun and strong smells.
- ◆ **For the full guide, follow our fish-care content on our page.**

Note:

The best gift is giving someone a little life that fills the space. Care for it gently, let it become part of their day, and make quiet memories with it.
